PRODUCT PORTFOLIO

Range of Pellets

We offer pellets and granules tailored to meet various industrial applications, ensuring high quality and reliability.

Specialized Pellets

Our specialized pellet portfolio includes MUPS, dual-release formulations, combination pellets and active-specific delivery systems.

High-Quality Nutraceutical Pellets

We provide nutraceutical pellets formulated with vitamins, minerals, iron, botanical ingredients and other nutritional actives.

Nutraceutical Premix & Blend Pellets

Our nutraceutical premixes and blend pellets combine selected vitamins, minerals and functional ingredients in formulation-specific combinations.

PELLETS

Quality Standards for Pellet Production

01

Pellet Size Control

Maintaining uniform pellet size ensures consistent combustion and efficient energy output in pellet production.

02

Moisture Control

Optimal moisture content improves pellet durability and combustion efficiency, preventing mold and degradation.

03

Durability & Ash

High durability reduces pellet breakage during transport; low ash content ensures cleaner burning fuel.
